Antares Charts Chart Selector - South West

Not to be used for navigation

WARNING: all Antares Charts and underlying surveys were made by unqualified enthusiasts; no warranty given or implied; use at own risk. See description of how charts were made, issues relating to use, risk factors and full terms and conditions on website: www.antarescharts.co.uk

COPYRIGHTS: Antares Charts 2020; Background mapping: Ordnance Survey 2020

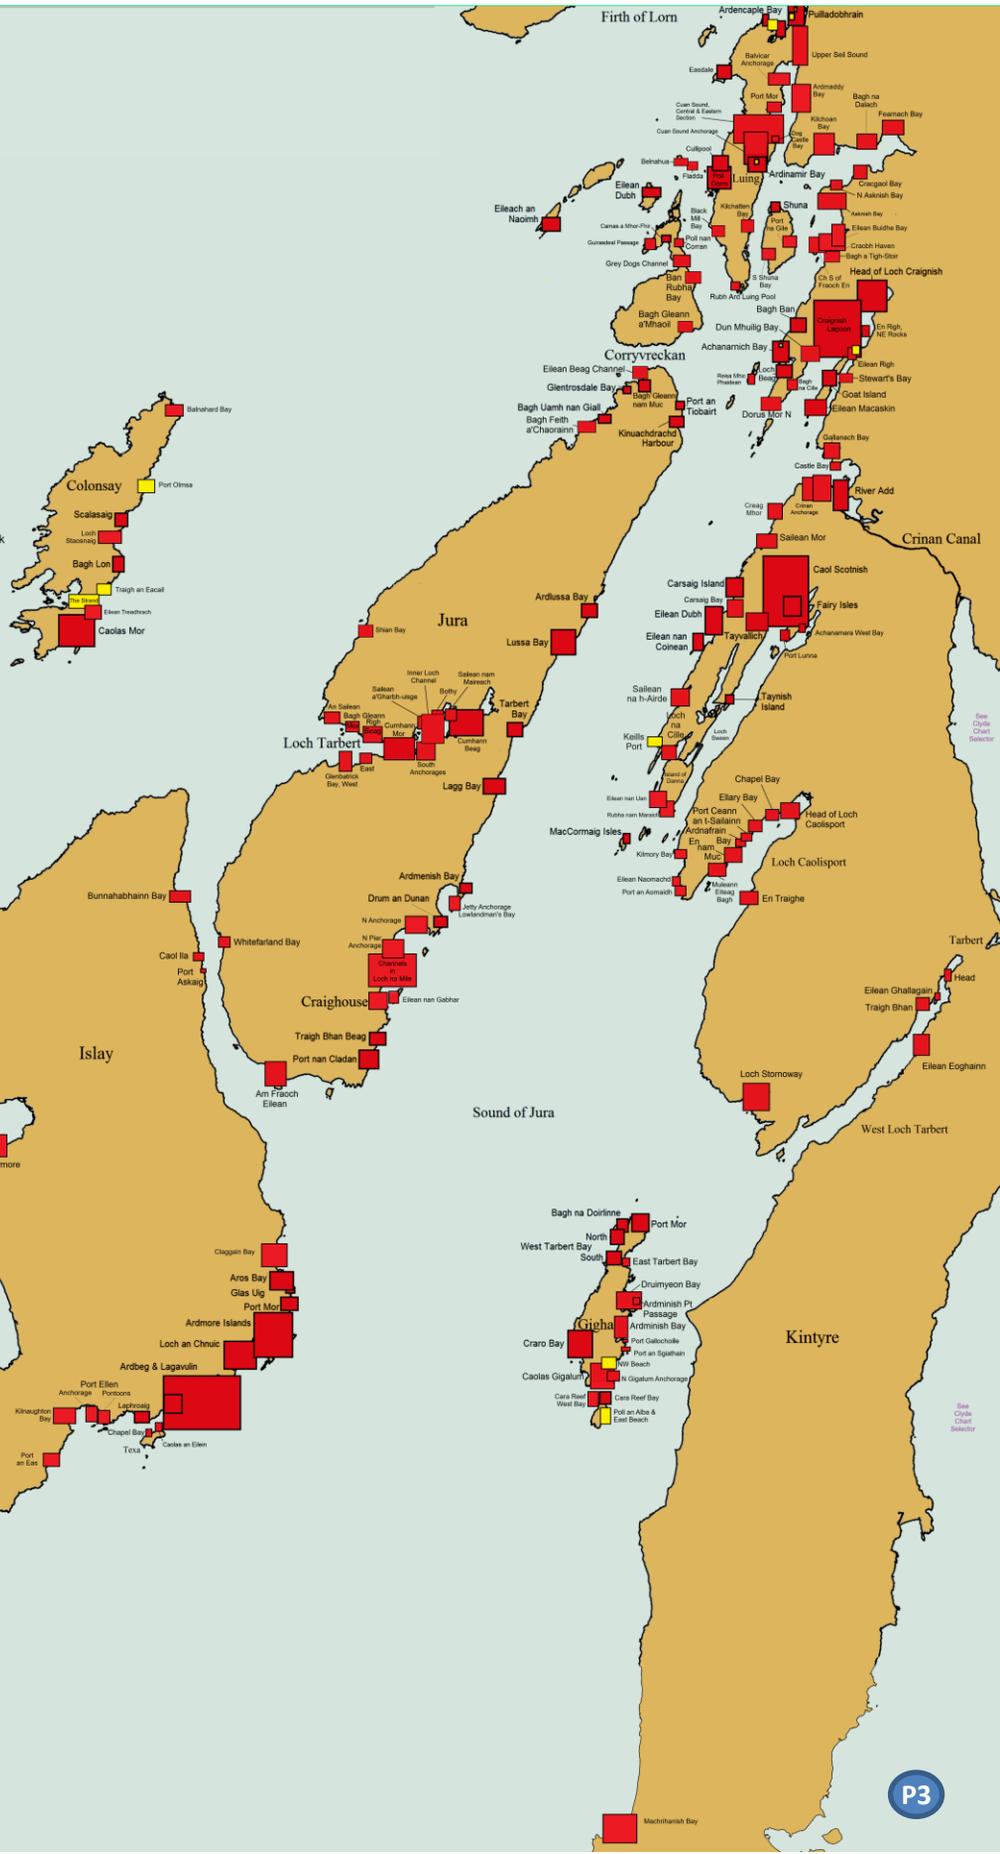

Chart: CSSW edition 11

If you spot any errors, have relevant updating information or wish to suggest locations for future surveys please send an email to: bob@antarescharts.co.uk

Key:

- Most of our charts offer something for yachts of all sizes, although some areas of some charts may be of interest only to shoal-draught boats and some charts have air-draught restrictions. These charts are shown in red.
- Some charts are primarily for shoal-draught boats, infatables or the most adventurous yachtsmen, usually at HW. Some show indicative depths rather than complete surveys. These are shown in yellow.
